

Annexure 5: Basel III Pillar 3 Disclosures

1. Scope of Application

CSB Bank Ltd (formerly Catholic Syrian Bank Ltd) is a commercial bank formed on 26th November 1920 with Registered Office at Thrissur. In August 1969, the Bank was included in the Second Schedule to the Reserve Bank of India Act 1934. The bank has no subsidiaries.

2. Capital Structure

Qualitative Disclosures:

As per Basel III guidelines, the Bank is required to maintain a minimum Capital to Risk Weighted Assets Ratio (CRAR) of 9% {11.5% including Capital Conservation Buffer (CCB)}, with minimum Common Equity Tier I (CET1) of 5.5% (8% including CCB) as on 1st October 2021. The minimum capital required to be maintained by the Bank (including CCB) for year ended 31st march 2021is 10.875% with minimum Common Equity Tier 1 (CET1) of 7.375% (including CCB of 1.875%).

Bank's capital structure consists of Tier 1 and Tier 2 capital. The major components of Tier 1 capital are equity share capital, equity share premium, statutory reserves, general reserves, special reserve (Section 36(i)(viii) of Income Tax Act) and capital reserves and revaluation reserves (after discounting). Tier 2 capital consists of provision for standard assets, provisions held for country exposures and Investment Fluctuation reserves.. Bank has not issued any Upper Tier 2 bonds or perpetual debt or other innovative instruments.

Total Eligible capital [A] + [B]	21,005.75	17,720.95

3. Capital Adequacy

Qualitative Disclosures:

In accordance with the guidelines of RBI, the bank has adopted standardized approach for credit risk, basic indicator approach for operational risk and standardized duration approach for market risk for computing capital adequacy. Basel III Capital regulations are applicable to Banks in India from 1st April, 2013 and will be fully phased in by 1st October 2021. Detailed guidelines on Basel III Capital Regulations and Guidelines on Composition of Capital Disclosure Requirements are issued by RBI and consolidated under the Master Circular – Basel III Capital Regulations July 2015.

The RBI vide circular No .RBI//2020-21/93 DOR.CAP.BC.No.34/21.06.201/2020-21deferred the implementation of the last tranche of 0.625% of Capital Conservation Buffer (CCB) from April 1, 2021 to October 1,2021. Accordingly, minimum capital conservation ratios as applicable from March 31, 2018 will also apply from March 31, 2021 till the CCB attains the level of 2.5% on October 1, 2021.

Regulatory Capital Adequacy position (as per Basel II & Basel III norms as made applicable by RBI) is assessed periodically. Besides, the bank also assessed its own internal estimate of risk capital based on its Board approved ICAAP policy and Stress Testing Policy to cover the Pillar 2 risks. Risks are assumed in line with the Bank's risk bearing capacity and capability in order to generate yields, taking risk-return frontier into account. This aims to ensure that risks that could jeopardize the Bank's existence are avoided.

3. Credit Risk: General Disclosure

Qualitative Disclosures

a) Definition of past due and impaired loans

Bank strictly adheres to RBI norms regarding definitions of past due and impaired loans, as under (in brief):

- i) Interest and or installment of principal remain overdue for a period of more than 90 days in respect of term loan accounts
- ii) the account remains 'out of order' (the outstanding balance remains continuously in excess of the sanctioned limit/drawing power, in cases where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power there are no credits continuously for 90 days as on the date of Balance Sheet or credits are not enough to cover the interest debited during the same period) in respect of Overdraft/Cash credit accounts. If the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter, the account is classified as NPA.
- iii) The bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted
- iv) The instalment of principal or interest thereon remains overdue for two crop seasons for short duration crops.
- v) The instalment of principal or interest thereon remains overdue for one crop season for long duration crops.

b) Credit Risk Management Policy

The bank has in place a Credit Risk Management Policy which is reviewed periodically to bring in refinements triggered by evolving concepts and actual experience.

The Executive level committee - Credit Risk Management Committee (CRMC) which reports to Risk Management Committee (RMC) of the Board, is responsible for the management and mitigation of credit risk in the bank. Credit Risk Management Department at Head Office level act as the secretariat of CRMC.

Credit approvals are subject to a well-established and time tested system of competencies, which act as a framework within which decision making committees are authorized to enter into lending transactions. Responsibility for the approval of loans is dependent on size, security and type of the loan.

Rating migration studies are conducted at quarterly intervals. The findings of the rating migration study brings light many behavioral patterns. Credit Risk Management Department conducts industry-wise evaluation to analyze the latest trends and developments in the industry, their impact on bank's customers, the desirability of taking further exposure, assessment of the quality of bank's exposure to that industry etc.

Credit rating system is in force using various CRA formats to measure the risk involved in each borrower account. All borrowers with an aggregate credit limit of above Rs. 25 lakh are

subjected to borrower rating. Gold loans, Loans against Deposit Receipts, Housing Loans, Loans against NSC & Insurance policies, Retail loans and Staff loans are subjected to portfolio rating.

Operations in all credit exposures of \mathbb{Z} . 50 lakh and above are monitored on a monthly basis by the Executive level committee – Large Advance committee to detect delinquency signals at an early date and nurse the account. To monitor the credit portfolio through various controlling returns, monthly operating statements (MOS) from branches to SME verticals of exposure of \mathbb{Z} . 50 lakh up to \mathbb{Z} . 2 crore and an exposure of above \mathbb{Z} . 2 crore by Credit Monitoring department.

Both regulatory capital and economic capital requirements are assessed at the time of credit appraisal of corporate exposures. RAROC analysis is based on bank's Board approved Risk Adjusted Return On Capital (RAROC) policy.

4. Credit Risk: Disclosures for portfolios subject to standardized approach Qualitative Disclosures

In accordance with RBI guidelines, the bank has adopted standardized approach for computation of capital for credit risk.

Bank Loan Ratings of CRISIL, CARE, ICRA, ACUITE (SMERA), BRICKWORK, INFOMERICS and India Ratings are considered for arriving at the capital requirement.

Bank extends external rating of other issues of the borrower to unrated claims only when the issue specific rating maps to Risk Weight higher than that of the unrated exposure.

5. Credit Risk Mitigation: Disclosures for standardized approaches Qualitative Disclosures

A Credit Risk Mitigation and Collateral Management Policy, addressing the Bank's approach towards the credit risk mitigants used for capital calculation is in place.

Following items are considered for on and off balance sheet netting:

- a) Deposits with specific lien to the facility
- b) Subsidies received (for priority sector advances)
- c) Claims received (for NPA accounts)

Of the eligible financial collaterals, the types of collateral taken by the bank are gold ornaments and bank's own deposit receipts. Gold ornaments are accepted as collateral by branches after due scrutiny and are marked to market value on a daily basis. Bank has made an assessment of market liquidity risk involved in liquidating gold ornaments and is considering a holding period of 21 days for advance against pledge of gold ornaments. In Pillar 1 capital adequacy computations, bank considers a haircut of 22% (after scaling up the standard supervisory haircut of 15% to a 21 day holding period). In addition to this, bank is maintaining extra capital for its gold loan portfolio in Pillar 2 capital computations.

The types of guarantees recognized for credit risk mitigation are guarantee by central government, state government, ECGC and banks (in the form of bills purchased/discounted under Letter of credit).

Collaterals other than financial collaterals that secure the credit portfolio of the bank are land & building, plant & machinery and current assets of the counter party. Land and Building includes commercial building, residential property and vacant land.

6. Securitization

No exposure of the bank has been securitized.

7. Market Risk in the Trading Book

Qualitative Exposures

Bank has put in place Board approved Market Risk Management Policy, Investment Policy and Foreign Exchange Policy for effective management of market risk of the bank.

Bank's Integrated Treasury manages the trading book. Proprietary trading is done in government securities, equity shares and foreign exchange. Adherence to limits is reported on a monthly basis to the Executive level Asset Liability Committee (ALCO) and Risk Management Committee (RMC) of the Board.

Modified Duration and Value at Risk (weighted historic simulation approach) are the tools used to track market risk in the trading book for interest rate related instruments. For equity exposures bank uses Value at Risk and Portfolio Beta.

Stress tests are conducted on a daily basis on securities in the trading book.

Portfolios covered by standardized approach are government securities, other trustee securities, Non SLR instruments, Certificate of Deposits and Equity Shares.

Total	18,924.13	22,994.51	644.32	691.98

8. Operational Risk

Qualitative Disclosures

The Executive level committee - Operational Risk Management Committee (ORMC) which reports to Risk Management Committee (RMC) of the Board, is responsible for the management and mitigation of operational risk in the bank. The bank has framed Operational Risk Management Policy duly approved by the Board. Other policies approved by the board that deal with the different facets of operational risk are Inspection Policy, Human Resource Management Policy, IT Policy, Compliance Policy, Business Continuity & Disaster Recovery Plan and Outsourcing policy.

Bank has obtained Bankers' Indemnity Policy to cover the risk of cash in transit and cash and securities including gold ornaments kept at branches. Risk Based Internal Audit (RBIA) is operational at all the branches.

Bank is adopting Basic Indicator Approach for arriving at capital charge for operational risk in compliance with RBI guidelines and is in the process of building database for moving to Advanced Approaches.

Cyber Risk: Cyber Risk can be defined as the risk connected to online business activity such as Internet Banking, Mobile Banking, Electronic Systems and storage of sensitive Information over computer networks. Common categories of Cyber Risk include inter-alia, Hacker Attacks, Data Breach, Virus / Malware transmission and Cyber Extortion. Financial gain continues to be a primary driver of the most sophisticated criminal offences and presents evolving challenges as criminal networks reinvest the revenue they generate into developing more advanced capabilities.

Cyber Risk can drive up costs and impact revenue. It can harm an organisation's ability to innovate and to gain and maintain customers. Cyber risk pose commercial losses and public relations problems, disruption of operations and the possibility of extortion, cyber- attacks. It also exposes an organisation to negligence claims, the inability to meet contractual obligations and a damaging loss of trust among customers. Protecting key information assets is of critical importance to the sustainability and competitiveness of business today due to which financial institutions like us are taking front foot in terms of their cyber preparedness. Because of this and to safeguard our institution from cyber threats, the bank has set up the cybersecurity framework.

Cyber Security Framework: Cybersecurity risks are products of three elements: threat, vulnerability and impact. The Bank has the holistic risk picture based on periodic vulnerability assessment and threat intelligence from advisory bodies such as CERT-In (Indian Computer Emergency Response Team) and IB-CART (Indian Banks – Centre for Analysis of Risks and Threats). The Bank has also invested in advanced systems such as antivirus / anti-malware, threat protection, network firewalls and application firewalls. It continues to invest in enhancing the overall effectiveness of the Bank's security posture to enable the Bank to prioritise and align its resources to detect and respond to cyber incidents quickly and prevent emerging cybersecurity risks.

Information Security Management department headed by Chief Information Security Officer (CISO) was formed to address cybersecurity risks. As part of the cybersecurity framework, proactive security measures adopted by the bank are Managed Security Operations Centre, advanced anti-phishing, anti-malware and anti-rogue services, Privileged Identity Management Solution, Web Application Firewall, Intrusion Detection and Prevention System for protecting network-level threats and for preventing unwanted and malicious network transmissions, Network Access Control which will allow only authorised users to connect to banks network, Data Leakage Prevention solution to prevent data leakage, DDoS mitigation service to prevent Denial of services, DMARC &SPF protection to enhance the email security standards, Vulnerability Assessment and Penetration Testing, SSL encryption for data transfers, network firewall etc., Bank is continuing to invest on advanced technologies to enhance the systems. To evaluate banks preparedness against cyber-attacks, bank participates in the cyber-drill conducted by IDRBT. Bank has always taken continuous steps to create cybersecurity awareness among employees and customers through training/Newsletter/SMS/Emails.

9. Interest Rate Risk in the Banking Book

Qualitative Disclosures

The Executive Level Committee - Asset Liability Committee (ALCO) has the overall responsibility of managing the interest rate risk in the banking book of the bank. ALCO fixes the deposit and lending rates of the bank and directs the investment activities of the bank in line with its interest rate view. Limits are fixed from both Earnings and Economic Value Perspective in board approved Asset Liability Management Policy and adherence monitored on a monthly basis. Interest Rate Risk from Earnings Perspective is measured through Earnings at Risk (EaR) approach (which computes the impact on NII of various interest rate changes) on a monthly basis. Interest Rate Risk from Economic Value Perspective is measured using Modified Duration Gap Approach on a monthly basis.

The Risk Management Committee of the Board oversees the ALM process of the bank and reviews the decisions taken by the ALCO.

Key Assumptions for IRRB calculations

- a) Bulk of the advance portfolio to re-price within 12 months.
- b) Maturity of deposits considered after adjusting empirically observed premature closure rates.
 - c) Core portion of Savings Bank Deposits slotted in 7 to 10 year time bucket.
- d) Core portion of Current Deposits slotted in 7 to 10 years' time bucket in Duration Gap approach. In the case of EaR approach, Current Deposits are treated as interest non sensitive.

Quantitative Disclosures

Interest Rate Risk – Earnings Perspective

1 Year Change in Market Rates (Parallel Shift)	Impact as on 31.03.2021	Impact as on 31.03.2020

+200 basis points	1624.47	338.19
-200 basis points	-1624.47	-338.19

11. Counterparty Credit Risk

Counterparty Credit Risk (CCR) is the risk that the counterparty to a transaction could default before final settlement of the transaction's cash flows. An economic loss would occur if the transaction or portfolio of transactions with the counterparty has a positive economic value for the Bank at the time of default. Unlike exposure to credit risk through a loan, where the exposure to credit risk is unilateral and only the lending bank faces the risk of loss, CCR creates a bilateral risk of loss whereby the market value for many different types of transactions can be positive or negative to either counterparty. The market value is uncertain and can vary over time with the movement in underlying market factors.

Capital is maintained on the exposure to CCR as per regulatory guidelines on Capital adequacy computation. The exposure is calculated using Current Exposure Method.

The MTM on client exposures are monitored periodically. The Bank does not recognize bilateral netting for capital computation.

	Notional	Credit	Notional	Credit
	Amount	Equivalent	Amount	Equivalent
	31.03.2021	31.03.2021	31.03.2020	31.03.2020

Leverage Ratio frame work

Definition and minimum requirement

The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as a percentage

Leverage Ratio =Capital Measure/ Exposure Measure

The public disclosure requirements of leverage ratio will begin from January 1, 2015 and the Basel Committee will monitor the impact of these disclosure requirements. Accordingly, banks operating in India are required to make disclosure of the leverage ratio and its components from April 1, 2015 on a quarterly basis and according to the disclosure templates as indicated in paragraph 16.7 along with Pillar 3 disclosures.

Table 1- Summary comparison of accounting assets Vs. leverage ratio exposure method

	Item	(Rs. in Million)
1	Total consolidated assets as per published financial statements	233373.54
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	
3	Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure	
4	Adjustments for derivative financial instruments	
5	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	
6	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off- balance sheet exposures)	8573.46
